Gain in Gold Reserve.

The weekly statement of the condition of the Federal reserve banks as of September 3, made public yesterday by the Federal Reserve Board, indicates a gain in the gold reserve of \$232,000, and a decrease in total reserve of \$372,000. The decrease of \$2,000,000 in gold reserve and of \$4,000,000 in other reserve reported by the Philadelphia bank is more than offset by an increase of \$3,200,000 in the amount reported by Philadelphia as due from other Federal reserve hanks. from other Federal reserve banks. A gain the New York bank is due mainly to increased credits in the gold settlement fund. The total amount of commercial paper held by the banks shows an in-crease of \$842,006, due largely to increased holdings reported by the Atlanta and Dallas banks.
